HOLOCAUST IN A HOTEL

Windsor Hostelry In New York Is Consumed by Flames.

PANIC AMONG THE GUESTS.

Women Attempt to Save Their Lives by Jumping From Windows.

OLD GOULD MANSION ON FIRE.

All Available Ambulances Are Called to Take the Injured to the Hospitals, Thrilling Events Witnessed by a Crowd of St. Patrick's Day Paraders.

New York, March 17.—A fire started in the Windsor hotel during the afternoon. A number of guests were seen to jump from some of the windows. A general call for ambulances has been sent in.

The whole of the Windsor hotel was in flames. It is at Forty-fifth street and Fifth avenue. The fire spread with great rapidity and the building with the block facing Fifth avenue looked like a roaring furnace. One woman jumped from the fifth story to the pavement on the Fifth avenue side. People were on the roof crying for help. The firemen did their best to reach the people on the roof and in the windows.

The police department telegraphed to Bellevue hospital for all the available ambulances and all the doctors at once went. Two emergency ambulances and several other doctors came later.

Fifth avenue was crowded with St. Patrick's day paraders. They surged around the hotel, and it was almost impossible to ascertain the number of casualties.

The firemen were hampered in their work. Chief of Police Devery issued a call for all the reserves, and soon hundreds of policemen were hurried toward the blazing hotel.

At 4 p. m. the Windsor hotel collapsed. The whole frame fell inward with a crash. The wounded are being taken away in ambulances. They are being cared for in private houses.

A number of priests are present tending their services.

Death of Mrs. Kirk. At 4:10 there had been found four persons dead and 12 injured. Among the latter is Mrs. J. S. Kirk, wife of a Chicago millionaire, whose injuries are said to be fatal.

Mrs. Kirk of Chicago died soon after her admission to the hospital.

Many jumped from the windows on the Forty-seventh street side, opposite the Gould residence.

Two guests jumped from a fifth-story window into a lifeline and were saved. A woman jumped from a window on Forty-sixth street, opposite Dr. Shady's residence. She was picked up unconscious.

Warren Leland is the proprietor of the hotel. He owned the Ocean house at Newport, which was burned.

The fire was discovered in the hotel at 3:30 p. m. in a parlor on the second floor at the southwest corner of the hotel. The discovery was made by one of the porters of the hotel. He rushed down in to the office and gave the alarm. The clerks ran upstairs, but the flames spread so rapidly that it was impossible for them to do much.

The old Gould mansion now occupied by Helen Gould caught fire.

Among the injured at Bellevue in addition to Mrs. Kirk are Mrs. C. C. Simmons, 50 years of age, of this city; Mrs. Haskell, residence unknown; an unknown woman about 25 years of age, with a fractured skull, and another unknown woman badly burned with a broken leg.

The loss of the fire is estimated roughly at \$1,000,000. The building is valued at \$250,000.

The firemen and the police are unable to estimate the loss of life, except to say that a large number of persons were undoubtedly hurried in the ruins. The hotel was crowded with women when the fire broke out. Many of them were at the windows watching the passing parade. In one window four women were standing. They all jumped into the street.

Abner McKinley's Home. The Windsor is the home of Abner McKinley, when in the city.

The building is owned by Elbridge T. Gerr. It was a seven-story brick structure and built about 1871, and occupied the entire block fronting on Fifth avenue, between Forty-sixth and Forty-seventh streets.

It is now said that there are from 12 to 20 bodies in the ruins of the hotel.

Miss Helen Gould sent word to the police to bring all the injured to her

home, and a number were carried there. In a short time, however, the firemen ordered Miss Gould and the others in the house to leave it.

A conservative estimate places the total loss of life at 25.

A middle-aged woman jumped from the sixth floor on the Fifth avenue side, and was taken to Miss Gould's house, where she died in a short time. She was identified by the clerk as the widow of a Baltimore millionaire.

The Gould house was saved by the hard work of the firemen. Apparently only slight damage was done to it.

Dr. Arthur Pitkin, the house physician, said at 5 o'clock: "I had eight bed-ridden patients in the hotel. As yet I have been unable to find but one."

QUIET RESTORED.

Hot Spring, Ark., March 17.—Peace and quiet prevails in this city, although the details of Thursday's bloody rioting, in which five well-known citizens were killed, are eagerly discussed on the streets. The fight was the result of the election contest for mayor.

Governor Jones arrived from Little Rock. Judge Belding, who was sworn in as chief of police, has appointed 100 special policemen, and no further trouble is now anticipated.

A coroner's inquest will be held. Sheriff Bob Williams, who was so prominently identified with the tragedy, is one of the best known public men in Arkansas. He has served a previous term as sheriff, and was at one time mayor of Hot Springs.

Chief of Police Thomas C. Toler, one of the slain, was a man of great courage. He was absolutely fearless of danger. He had lived in Hot Springs about 25 years and had a somewhat stormy career.

The coroner's jury convened at 12:30 p. m. It is expected that the inquiry will consume four or five days. Sheriff Williams, David Young, Coffee Williams and William and Samuel Watt were placed under nominal arrest on warrants sworn out by Prosecuting Attorney Cloud charging them with murder in the first degree. When the sheriff learned that a warrant was out for him he sent word to the coroner that he would submit to being arrested and placed under guard and that he was ready to give bail in any sum demanded. It is reported that Edward Spears has died of his wounds.

Solons Called Home.

Little Rock, March 17.—The entire Hot Springs delegation in the legislature left at 3 p. m. for home. They have been called there by many urgent requests of citizens, who feel that their influential presence is necessary at this time. They feel that they can aid in maintaining order. Private advices from Hot Springs reports the situation as very critical, and a further outbreak is feared.

QUEEN REGENT

Signs the Peace Treaty Between United States and Spain.

Madrid, March 17.—The queen regent has signed the treaty of peace between Spain and the United States.

The draft of the treaty of peace between Spain and the United States senate was signed in Paris on Dec. 10, 1898. It was approved by the United States senate by a vote of 57 to 27, on Feb. 6, and was signed by the president on Feb. 10.

The signed treaty of peace will be forwarded to the French ambassador at Washington, M. Jules Cambon, for exchange with the one signed by President McKinley. No decree on the subject will be published in the official gazette.

Complaint Against Fawcett.

San Francisco, March 17.—D. W. Sample of Dawson City, business manager of the Klondike Nugget, is in the city en route to Ottawa, Ont., formally to present charges against ex-Governor Commissioner Thomas Fawcett. His mission is the outcome of a persistent and uncompromising attack upon the methods and practices of the office from which Fawcett was recently removed. He is still chief of survey, however, and from this place his removal will be asked.

Exposition at Liege.

Washington, March 17.—Consul Winslow at Liege informs the state department that the Liege International exposition will be held in that city, beginning about May, 1903, and continuing six months, under the patronage of the government of Belgium and the province and city of Liege. A beautiful and convenient site has been selected, covering about 200 acres, partly in the valley and partly on the hills.

Washington, March 17.—Virgil P. Kline, a Cleveland attorney, is here, taking depositions in the interest of John D. Rockefeller and other defendants in the Standard Oil company cases. Attorney General Monnett of Ohio is also said to be in the city, with the intention, it is said, of serving subpoenas on some of those who will make deposition before Mr. Kline.

NEGRO TROOPS BLAMED

Governor Candler's Version of the Palmetto Tragedies.

DESCRIBED AS COWARDLY.

The Chief Executive of Georgia Brands the Killing of the Colored Prisoners as a Reproach on the Commonwealth.

Atlanta, March 17.—Governor Candler is very bitter in his denunciation of the Palmetto affair. He attributed the trouble to the fact that the negro regiments and soldiers have been passing through the country and the sight of them has placed in the mind of the negro a spirit of boldness.

"The Palmetto lynching was as deplorable as it was bloody and cowardly," said the governor.

"It is true the town was burned in the night time, endangering the lives of all its women and children. It is true that I had offered heavy rewards for the apprehension of the incendiaries, and that these negroes had been arrested, and some of them had confessed their guilt and implicated the others in the crime. But it was cowardly and barbarous to slaughter them as this mob did, for they had been arrested and were in the hands of officers of the law, awaiting a committing trial. The law was adequate for their punishment, and there was no doubt of their speedy trial and punishment, if convicted."

"Until recently there was no race friction in the state. The Georgia negro is not naturally vicious nor predisposed to the commission of atrocious crimes. This was demonstrated during a hundred years of slavery. The Georgia white man is not his enemy, as he has had abundant reason to know since he became a free citizen. Such outrages as this never, or seldom, occurred in this state until regiments of insolent, drunken negro soldiers, the scum of the dives of the cities north and south, were quartered here and there in the state and in the south. "A mob of negro soldiers ran riot in Tampa and outraged women in broad daylight. Another gang of drunken vagabonds in Macon defied and tried to fire on the police. For months another regiment of these lawless vagabonds, wearing the uniform of the United States soldiers, terrorized Chickamauga and the town of Lytle, in north Georgia, to say nothing of the Griffin episode and other similar occurrences."

"They had to be escorted through every southern city through which they passed after they were discharged by a battalion of police to prevent looting the stores and terrorizing the people."

"The Leesburg outrage, the Palmetto burning, and many other similar crimes committed in Georgia by negroes during the last few months are due to the baleful influence and example of these lawless rowdies, who disgraced the uniforms they wore. This is the primary cause of all these troubles. Still this does not justify the bloody and barbarous retaliation of Leesburg and Palmetto."

"The white men who participated in these sanguinary dramas are as unjustifiable for their conduct as the negroes they lynched. Both are a disgrace to our civilization and a reproach to our state, and all the power of the state shall be used to prevent a recurrence of such crimes and to punish the perpetrators."

No Investigation Ordered.

Palmetto, Ga., March 17.—The Capital City guards of Atlanta who were sent here by Governor Candler to aid in preserving order, left for home at noon. John Bigby, one of the negroes wounded by the party of lynching, is still alive. The other wounded man will recover. No action looking to an investigation of the affair has yet been taken by the county authorities.

Going to Alaska.

Washington, March 17.—Professor C. C. Georgeson of the department of agricultural will leave here Saturday for Alaska to establish at Sitka an agricultural experiment station and look after the agricultural possibilities of that region. Professor Georgeson is a native of Denmark, and thoroughly familiar with the conditions of agriculture in northern Europe, and has had a long experience as a professor and experiment worker in Japan and Kansas.

Nurses Discharged.

Anniston, Ala., March 17.—The female nurses who have been at the Camp Shipp field hospital were discharged. Orders were also received directing that the field hospital be closed Monday and the patients transferred to the regimental hospitals. The patients who are now few in numbers are convalescent.

DRIFTING HELPLESS.

The Big Car Ferry Shenango Caught in the Ice.

Cleveland, O., March 17.—The tug Sunol, which arrived here, reports seeing the big car ferry Shenango off Ashtabula drifting helpless in the ice. The Shenango was light and was on her way from Port Dover to Conneaut. She was caught in the drifting ice pack. The boat carries a crew of 10 men. Their position, it is said, is perilous. On account of the heavy ice, it would be impossible for a tug to reach the vessel.

New Incorporations.

Columbus, O., March 17.—The Bauer Avenue Mutual Aid association, Cincinnati; the Pointer Oil and Gas company, Dennison, capital stock \$5,000; the Cleveland and Akron Suburban Electric Railway company, Cleveland, amendment changing name to the Cleveland and Akron Railway company; the Hebrew Singing and Benevolent association, Cleveland; the Barr Affolter Oil and Gas company, Dennison, capital stock \$5,000; the W. E. Kelly Manufacturing company, Cleveland, capital stock \$25,000; the Coshoc-ton Novelty company, Coshoc-ton, capital stock \$10,000; the Kinsley Plumbing company, East Liverpool, capital stock \$1,000; the Camp Washington club, Cincinnati.

Agreed to Sell.

Bellaire, O., March 17.—The stockholders of the Riverside Ironworks have voted to sell the plant at Benwood, W. Va., and Steubenville, O., to the combination of which J. Pierpont Morgan is the head for \$6,000,000.

General Greeley's Plans.

Washington, March 17.—General Greeley of the signal corps is trying to solve the problem of how to manage the telegraph system of Cuba and Porto Rico, which is in the hands of 500 volunteers, with 300 regulars, who do not know anything of telegraph lines. The general has been trying, and with some success, to have the volunteer operators enlist in the regular army and be detailed to the signal corps for the purpose of working the telegraph lines and managing the different stations and offices.

Message From Kautz.

Washington, March 17.—Admiral Kautz has cabled the secretary of the navy from Apia, Samoa, via Auckland, New Zealand, that he has arranged for a meeting of the three consuls, those of Great Britain, the United States and Germany, at an early date to have a full and free discussion of Samoan affairs. The cable dispatch is dated a week ago, so that this meeting undoubtedly already has taken place, and the admiral's next report may be expected to tell the results of the conference.

Climax Expected.

Washington, March 17.—Advices have been received from Manila, which indicate that the climax may occur at any hour. The officials here are very well pleased with the condition of affairs, but will not at present discuss the details of the dispatches. The indications are that hostilities may end within a very short time. President McKinley has been advised.

Additional Paymasters.

Washington, March 17.—The president has appointed Hugh B. Belknap of Chicago, Brandon D. Slaughter of Nebraska and Captain Charles Newbold of the District of Columbia to be additional paymasters in the army. Mr. Belknap has served two terms in congress and is the son of the late General Belknap, ex-secretary of war.

High Water at Rome.

Rome, Ga., March 17.—The water gauge on the bridge across the Ostanula river stood at 29 feet at 2 p. m., and is still rising slowly. The low lands on the right bank of the Coosa, known as Hamilton bottoms, are under water from one to 10 feet. Water has penetrated the basements of several stores.

Invitations to Be Sent Out.

New York, March 17.—Warden Sage of Sing Sing prison will send out some time the invitations to the witnesses who will be at the execution of Mrs. Martha Place for the murder of her stepdaughter, Ida Place. It is generally understood the execution will occur on Tuesday at about 11 a. m.

Visited the Palace.

Havana, March 17.—Governor General Brooke visited the palace. It is said the repairs to that building will be completed by the middle of April, when the governor general will move his headquarters there.

Fireman Killed Killed.

Middleboro, Ky., March 17.—In a wreck on the Louisville and Nashville railroad near Wheeler, nine miles from here, at 2 a. m., caused by a landslide, was killed, and Engineer Charles Shively injured.

Atlanta's Oldest Citizen Dies.

Atlanta, March 17.—John S. Prather, sr., 102, the oldest citizen of Atlanta, is dead.

A HOSTILE COLLISION

Between Americans and Canadian Miners in the Klondike.

PITCHED BATTLE OCCURS.

It Appears That the Yankee Gold Hunters Retaliated For Being Driven Off of British Territory by Expelling the Canadians.

Vancouver, B. C., March 17.—Carl Slummerfelt, who was a passenger on board the steamer Lees, which has arrived here from the Lynn canal, brought the news that a battle had been fought between American and Canadian miners, a few miles off the Dalton trail. Four men are reported to have been killed outright and a number of others are said to have been seriously wounded.

When the alien mining law of British Columbia was enforced a few months ago the American miners left Atlin, the new Canadian gold district, and struck north. They found a short distance off the Dalton trail, on the Porcupine river, a district rich in placer gold. It was generally conceded that the new placers were in American territory, and the miners vowed that no Canadian should stake a claim. Some Canadian mounted policemen, however, did stake claims in the American territory, and justified their act by moving the Canadian flag from Mount Pleasant on the trail so as to make the line take in a rich part of the district.

They were followed by at least 40 Canadian miners, who all located good claims. A fortnight ago about 100 American miners held a meeting and decided to send notices to all Canadians to leave the country within five days.

The notices were sent out, but no heed was paid to them. Slummerfelt, who left the Porcupine river district two weeks ago, says:

"Early on the morning of the sixth day the American miners met and proceeded to the Canadian camp."

"I don't believe they intended bloodshed, although they were fully armed. Before they could even state the object of their visit some one, I do not know from which party, fired a shot, and then every one seemed to be shooting. Several rounds were fired, and four men, I was told, were killed outright—an American and three Canadians."

"The battle was very brief, and resulted in the Canadians, about 50 in number, flying across the border. The Americans then retired to their own camp."

Slummerfelt's story is unconfirmed, but reports received here about two weeks ago from the district predicted a clash if the Canadians did not leave the territory.

Trouble Expected.

Washington, March 17.—The hostile collision between American and Canadian miners reported from Vancouver is exactly what was apprehended by the representatives of the United States government in the late Canadian conference. It is said by one of these officials that they were sadly embarrassed in their efforts to settle the Alaskan boundary dispute by the British Columbia legislature, which so far from endeavoring to secure a peaceful adjustment of the boundary difficulties, had by the passage of irritating legislation, done much to retard an agreement.

Attempt to Blackmail.

New York, March 17.—J. D. Archbold, vice president of the Standard Oil company, was examined before Allan T. Brinsmade, acting as a master under commission of the supreme court of Ohio. Mr. Archbold testified that he was secretary of the Stanard Oil trust when that concern existed, and that he was one of its liquidating trustees during the process of its dissolution. Mr. Archbold said that in 1886, George D. Rice made a proposition to him that the Standard Oil company pay him \$500,000, half in cash and half in five years, for an oil refining plant and wells at Marietta, O., adding that if his proposition were not accepted he would make it cost the Standard Oil company more than \$1,000,000. Mr. Archbold said to the master that he had never considered Rice's proposition as a business one, but as "nothing more nor less than a pure and unadulterated attempt at blackmail."

To Care For Sherman.

Washington, March 17.—The secretary of state has cabled the United States consul at Kingston, Jamaica, to meet the Paris upon her arrival there Monday and to do everything in his power to facilitate the transfer of ex-Secretary Sherman from the Paris to the cruiser Chicago. The latter has not yet reported at Havana, but there is still plenty of time for her to reach Kingston in season to meet the Paris.

DEMOCRATIC STATE CONVENTION.

At a meeting held by the Democratic State Executive Committee in the city of Lexington on March 8th, 1899, it was ordered that a State convention be held in Louisville on Wednesday, June 21st, 1899, for the purpose of nominating Democratic candidates for State officers to be voted for November 7th, 1899, the convention to be called to order at 11 o'clock a. m.

Delegates to said State convention shall be chosen at county mass conventions to be held at the various county court houses in counties having but one legislative district, of which due notice shall be given by the various County Committees. In counties having more than one legislative district there shall be a convention for each legislative district to be held at some convenient point to be indicated by the Chairman of the Legislative District Committee, who shall advertise in the local papers the location for said convention at least ten days prior to the date fixed by this committee. Said county and legislative district conventions shall be held at 2 o'clock p. m., standard time, on June 17th, 1899. Said conventions shall be called to order by the Chairmen of the respective County or Legislative District Committees.

The basis of representation of each county to the said State convention shall be one delegate for each 200 votes and fraction of 100 or more votes cast for the head of the Democratic Electoral ticket in the Presidential election in 1896, provided that each county shall have at least one delegate vote. All known Democrats and others who supported W. J. Bryan for President and those who pledge themselves to support the nominees of said State convention shall be entitled to participate in the county or legislative district conventions.

R. Owen Cochran, Secretary.

The mean underhand methods of Secretary Alger and his gang in their efforts to down General Miles find expression in the publication of the history of General Miles' connection with the treatment of Jefferson Davis. It was given out by the War Department with the evident design of making General Miles unpopular. The Lexington Herald suggests that the next step it should take is to give out the record of General R. A. Alger, Secretary of War, and General H. C. Corbin, Adjutant General, as it appears from the court-martials held in their cases.

The Cincinnati Post has been presenting some striking object lessons on the work of trusts by publishing cuts of large factories which once afforded employment for hundreds of hands, but which were gobbled up by some combine and are now idle and going to ruin. The last is a picture of the radial drill and tool works, at Third and Eggleston avenue, Cincinnati. The Post says: "Prosperity smiled on its 200 workmen five years ago, but it was the old story—the trust reached out, its business suffered and the plant was finally deserted. It is now idle. Small boys in the neighborhood toss stones through the shattered windows and listen to the reverberating echo as the stones roll across a barren floor. Floors once laden with machinery, the make of well-paid men, are covered with mold."

Pork Packing and Provisions.

[Cincinnati Price Current, March 16.]
There is a fair number of hogs being marketed. For the week the total Western killings have been 375,000 head, compared with 400,000 head the preceding week and 345,000 head last year. From March 1 the total is 775,000 head, against 740,000 head last year. The quality is almost uniformly good. Prices at the close average about 5c. per 100 pounds lower than a week ago and about 10c. per 100 pounds lower than a year ago.

The provision trade has disclosed no important changes during the week, the current demand being freely met without disposition to yield much in prices. In fact, there appears to be a general belief that there is little or no probability of a tendency to lower values, and that the absorption of product is likely to steadily reduce the surplus of stocks for a considerable time to come.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c. at J. J. Wood & Son's drug store.

BROAD TIRES.

Many Countries Compel Their Use,
and They Should be Adopt-
ed Here.

Heavier Loads Can be Hauled and They
Don't Cut Up the Pikes and Streets.

[Mt. Sterling Advocate.]

The Missouri Agricultural Experiment Station made a series of tests extending from January, 1896, to September, 1897, in order to thoroughly and scientifically ascertain the value of wide tires as compared with narrow ones. They were made with two wagons, one with 6-inch tires, the other with standard 1½-inch tires, both wagons of the same weight, and each loaded with 2,000 pounds. It was found that the same power needed to draw the narrow-tired wagon, with its 2,000 pound load on a gravel road would have pulled a load of 2,482 pounds on the wide tire wagon. The same power required to draw the 2,000 pound load on narrow tires over dirt and gravel roads, when these were dry and hard, was found sufficient to draw a 2,530 pound load on the wide tire wagon under the same condition; and it was shown that when these roads were deep with mud, but partly dried at the surface by a few hours sun, the same power required to draw the 2,000 pound load over them on the narrow tires, would pull a load of 3,200 pounds on the wide tires.

Director Waters, of the Station, states that the condition, under which the narrow tires offer an advantage over the wide ones "are unusual and of short duration," and that "through a majority of days in the year, and at times when the dirt roads are most used, and when their use is most imperative, the broad tired wagon will pull materially lighter than the narrow tired wagon."

He states "that a large number of tests on meadows, pasture, stubble land, corn ground and plowed land in every condition, from dry, hard and firm to very wet and soft, show, without a single exception, a large difference in draft in favor of the broad tires. This difference ranged from 17 to 120 per cent." As a result of all experiments conducted, he says, "it appears that six inches is the best width of tire for a combination farm and road wagon, and that both axes should be the same length, so that the front and hind wheels will run in the same track."

Experiments made at the Agricultural Station in Utah have demonstrated that 1½-inch tired wagons drew about 40 per cent. heavier than one with 3-inch tires, and weighing with its load the same as the other.

At the Ohio State University it was shown that a wagon with 3-inch tires and loaded with 4,480 pounds, could easily be hauled by two horses over an ordinary dirt road in good condition and with a hard surface, while with a narrow tire half as much was a full load for a double team.

The principal of wide tires is so generally acknowledged in Europe that laws have been passed in each country prescribing their use. Austria requires tires of at least 4½ inches width, increasing as the load to be carried rises above 3½ tons. In France all freighting and market wagons are turned into road rollers by being required to have tires from 3 to 10 inches wide. Germany requires 4-inch tires for all wagons used for heavy loads, Switzerland requires that they shall be provided with tires of 6 inches. These regulations have been adopted for the protection of high class European roads built during the present century.

While on this subject it might be well to add that in many cities in this country the use of narrow-tired wagons and other heavy vehicles is prohibited. There is no question that streets would last longer were broad-tired wagons required. As it has been demonstrated that they are better for all concerned, it looks like they should be generally substituted for the narrow-tired vehicle.

Rev. George P. Taubman May Be Called to Walnut Hills.

Enquirer: "The Board of Trustees of the Walnut Hills Christian Church having learned that Rev. Lowell McPherson, of Buffalo, N. Y., who preached at the church some weeks ago with the view of becoming its pastor, would probably not accept a call, have taken further steps to fill the pulpit left vacant by the resignation of Rev. S. D. Dutcher. Thursday they arranged to have Rev. G. P. Taubman, of Mayslick, Ky., preach trial sermons at the morning and evening services next Sunday. Rev. Taubman was formerly the pastor of the First Christian Church of Newport, Ky., and is said to be a man of wide information and a forceful pulpit speaker."

MISS SALLIE S. WOOD having purchased the stock of drugs of the late George T. Wood will continue the business under the name of George T. Wood.—Sallie S. Wood, proprietor,—at the old stand corner Second and Market Sts., where she will be glad to see her friends.

THE Court of Appeals has affirmed the judgment of the Jefferson Circuit Court, Common Pleas division, in the case of the Fidelity & Casualty Company vs. the City of Louisville. The action was to test the validity of a Louisville city ordinance, charging insurance companies a fee for operating in the city. The lower court sustained the law and the Appellate Court upholds this action.

Carpetings for Spring.

We have the exclusive control here of a large manufacturer's output, embracing fully one hundred different patterns in Tapestries, Brussels, Moquettes, Velvets and Ingrain. After long and careful consideration we have adopted this method of Carpet selling for two reasons. First, we can give you a selection in point of quantity, quality and artistic designing the Cincinnati markets cannot rival, an impossibility under other conditions, as we have not the room to carry such an enormous stock as our selection line represents. Secondly, we can sell cheaper, much cheaper, than under the old method, as the factory carries our stock for us, and we need keep no reckoning of profit-clipping, remnants and unpopular patterns. Entering upon this different arrangement in our Carpet business there are three points in which we determine to excel: Private Patterns, High Grade Goods at Low Prices, Carpet Making. Think over what this means. First, you need not cover your floor with hackneyed patterns. On the contrary exclusive and fresh designs are at your disposal. Second, you need pay no more for the best than poorer grades cost elsewhere. Third, when the Carpet-Making is entrusted to us, we will have all Carpets machine-stitched; Bordered Carpets will be faultlessly mitred and sized. No ripped seams, no puckered corners, the cost no more. We solicit your patronage on this basis. Orders can be filled within twenty-four hours. Come in and look over our line.

The Man

Who conducts his business on the broadest principles is careful to make every customer a lasting customer. He knows it does not pay to make an enemy in business or out of business. Modern merchandizing is done on a basis which does not admit of the sacrificing of a dollar's worth of trade. We realize this, and have a Spring line of Clothing of the best and largest houses in this country, bought at spot cash prices. This Clothing is made to give entire satisfaction in every particular,—colors fast, fit perfect, workmanship the best; in fact every Suit or Top Coat we sell means a permanent customer, so then it is to your interest to buy from us. You get the best, the newest style, at the lowest possible price.

WILL H. CAKE WEDS.

A Son of the Late Rev. E. B. Cake, Formerly of This City, Married at Decatur, Ill., March 14th.

[Decatur, Ill., Republican, March 15th.]

The ceremony which united Miss Margaret Williams and Will H. Cake was celebrated in a very quiet manner at the home of the bride's parents, Major and Mrs. R. T. Williams of 746 North Union street, at 8 o'clock last evening. Rev. W. C. Miller, of the Congregational Church, was the officiating clergyman.

Because of the recent death of the groom's father, Rev. E. B. Cake, and also because it is the height of the Lenten season, the wedding was an extremely quiet one. The ceremony was witnessed by the members of the immediate families and a very few friends. The wedding march was played by Miss Frances Cake, with a violin accompaniment by Miss Cordelia Williams. The couple stood before a bank of potted plants while the ceremony was being said. The bride was simply gowned in a dainty dress of light silk. She wore no ornaments, every detail of the affair being characterized with marked simplicity and quietness.

Following the ceremony a wedding supper was served. The out of town guests were Charles A. Ewing, of Sedalia, Mo., traveling salesman for the Decatur Coffin Company, and Henry Cake, cashier of the Clifford Banking Company of Clarksville, Mo.

The groom is the bookkeeper at the Union Iron Works. The couple will live at 518 West North street. They will board for the present.

JUST FROM CUBA.

Eighth Illinois Volunteers Passed Here Last Evening En Route to Chicago To Be Mustered Out.

The Eighth Illinois volunteers, a colored regiment, passed west over the C. and O. last evening between 6 and 7 o'clock. It required three trains to transport them.

This regiment has been stationed at Santiago, Cuba, for several months, and is one of the regiments of volunteers lately ordered home to be mustered out.

They were on their way to Chicago where the work of mustering them out will occur the next week or two.

Washington, March 17.—The navy department is taking steps toward the formation of a mosquito fleet for the Philippines. The conditions now prevailing in Luzon indicate that for a long time, it will be necessary to maintain a strict police of the coast and inland waters. For the inland work especially the department will need some very light draft boats. For this work the big ocean tugs that formed the "Misquito fleet" that operated around Cuba during the blockade and of which the government has a number are now being looked over.

BUNCH OF GOOD ONES.

Mr. Carpenter Secures Twenty-One Horses and Two Mules on His Visit Here Thursday.

Mr. Sanford Carpenter, of Millersburg, was at Wells & Biggers' stable Thursday, and purchased another bunch of good horses, securing twenty-one in all. He also bought a couple of good mules.

This is the second purchase he has made here lately. The animals bought Thursday were shipped Friday. They go to Atlanta, Ga.

As long as Mr. Carpenter can secure good horses he will make his regular visits here. Farmers who have stock to sell should get them in good condition.

The World's Best

Does not come to us unsought.

We hunt after it, and only makers of the highest grade of Clothing and Shoes get our orders.

If you have ever worn a Suit or Overcoat from our house, "you know;" if you have not, try us this spring.

The youngsters are commonly the first in the family that require a new season's outfit. We claim distinctive merit for our line of Children's and Boys' Clothing. You will find prices so modest that it may lead to doubting quality, but we guarantee both.

Our Vestee Suits, ranging from \$1.25 to \$3.75, are simply elegant. Our Double-Breasted Jacket and Pants Suits, ages 8 to 15, ranging in prices from \$1.50 to \$4.75, we believe to be the best ever shown for the prices. You will favor yourself and us too by comparing them with those of other houses.

THE PROPER THINGS

for this Spring's good dressers are lightish colored checks and modest plaids, but serges principally in dark blue and black will contend for supremacy, and justly, too. Our Serge Suits (and we have them in all styles) will be found distinctively a "gentleman's" Suit of Clothes. Knowing that there will be a great demand for Spring Top Coats, we secured a magnificent line of them. We cannot describe them on paper. Come in and look at them.

Our Men's and Boys' Shoes! Look at our Shoe window. It tells the tale.

THE GREAT PRIMA DONNA.

Mme. Scalchi to Visit Maysville Next Saturday Evening, March 25th.

The great prima donna, Madame Scalchi, is making a farewell tour of this country, and visits for the first and last time most of the cities of the Western and Southern States. She wants to return to her home in Italy and be able to say that she has visited every city of over 5,000 inhabitants in the world. She is meeting with unprecedented success all along the route.

She will be here in a few days, and will sing many of the selections which have made her so famous all over the world. She will give a great program. Part 1st will consist of the leading arias from the grand operas. Part 2nd—a complete performance of grand opera in costumes, scenes, etc.

She is ably supported by Signor Alberti, the world renowned baritone; Mile. Noldi, prima donna soprano; Signor Canzio, all of whom rank among the world's great artists.

It will be a musical treat rarely heard in our city, and there is no doubt but that the new opera house will be filled to its utmost capacity on Saturday evening, March 25th.

MR. GEORGE WOODWARD and Miss Anna Pepper, daughter of the late Captain A. M. Pepper, were married Thursday at the bride's home near Germantown.

The Knights of Pythias of Mt. Olivet will dedicate their handsome new castle hall on the evening of April 4th. There will be a banquet and a good time generally. Limestone Lodge has been invited, and many of the members will no doubt attend.

The authorities of Montgomery County are protecting the free pikes in that county by imposing heavy fines upon any one caught overloading wagons and cutting the pikes to pieces. A load of 7,000 to 8,000 pounds on a wagon with only 2 to 2½ inch tires is destruction to a pike when it is wet and soft.

ACTING GOVERNOR WORTHINGTON has granted a pardon to the Owingsville Electric Light Company, indicted in the State Fiscal Court, for failing to report. Governor Worthington states as a reason for the pardon that the company had sought to comply with the law but had been prevented by technicality. He refused similar petitions from the Catlettsburg Electric Light and Catlettsburg Water companies.

UNION OF HEARTS

And of Hands Hoped For by Lieut. Gov. Worthington at Dedication of Kentucky's Monument.

FRANKFORT, Ky., March 17.—Acting Gov. Worthington to-day issued a proclamation naming Wednesday, May 3, as a day of the dedication of the Kentucky monument to soldiers of the Civil war. The proclamation, in part, says:

"Kentuckians will remember that this monument is not erected as a trophy of victory, but as an evidence of the affectionate and grateful remembrance of all true Kentuckians who fell upon this historic field. A cordial invitation and request is hereby tendered to the citizens of the Commonwealth, without regard to race, creed or previous conditions to be present on this conditions, to the end that the united gratitude of a grateful people may ascend to a merciful God and blot out the record of a maddened and fratricidal war, and that every germ of hatred may be eradicated from our hearts, that there may be a union of hearts as well as of hands."

The Gate City sank a barge of cinders near Sciotoville.

The Avalon will leave Charleston Sunday morning and will pass down Monday. Captain Ira Huntington, late of the Kanawha, is in charge of the office.

Pittsburg Chronicle: "The City of Pittsburg is undoubtedly the finest river floating palace in the United States, and that is saying a great deal, for there have been many elegant steamers built lately. The City of Pittsburg, however, is the latest boat built, and, besides costing considerably more than any other river craft, she has been constructed with a view of catering more for passenger than freight traffic. Of course, she will compete in the regular trade for both branches of the steamboating business, but her passenger arrangements are acknowledged by all expert rivermen to be the best yet attempted in river navigation. The new steamer has every modern convenience that the most exacting could expect. On the special cruise to New Orleans the steamer will be provided with a brass and string band."

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this royal cure: "It soon removed the pain in my chest and I now can sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c. and \$1. ENDORSED BY TEACHERS.

Paine's Celery Compound Counteracts the Nervous Strain of the School Room.

"I know of nothing so good as Paine's Celery Compound," says Miss May Sherwin, for the past seventeen years principal of the largest public school in Bloomington, Ill., "to counteract the nervous strain incident to a constant life in the school room."

"I have myself used Paine's Celery Compound," she continues, "with most satisfactory results. It is a splendid nerve tonic."

The discoverer of Paine's Celery Compound was himself one of the greatest teachers that ever lived. Edward E. Phelps, M. D., LL. D., held a famous professorship in Dartmouth College, and was a lecturer in other great universities all the while he was engaged in that momentous study which led to the chief accomplishment of the medical research of this century—the development of Paine's Celery Compound. The general complaint now among intelligent women is that they are hurried and driven and fretted almost out of their senses by demands upon their time and strength. No wonder, then, the average woman has lost the capacity for sound sleep, good

digestion and the freedom from aches and pains that follow healthy organic functions.

Many years of suffering might be avoided, weary months of lost time put to good service and thousands of lives saved if persons who do not sleep well and those with overworked brains and nerves would take Paine's Celery Compound. In the cure of nervous diseases this remedy has again and again demonstrated its power to combat these tenacious ailments.

It is to general poor health that we are to look for the cause of headaches, rheumatism and neuralgia, and to overcome these troubles it is the general health that must be raised. Sick headaches that recur so periodically with most women and are so grievous an affliction should be treated as due to lowered nervous tone, and a thorough invigoration of the body should be undertaken with Paine's Celery Compound.

The best test of the wonderful value of Paine's Celery Compound is to use it. Any woman will soon be convinced that it is the one remedy that can make and keep her well and healthful and strong.

Spain's Next Move.

Washington, March 17.—In the absence of any direct diplomatic communication between the United States and Spain, Secretary Hay expects to receive his first formal notice of the ratification of the peace treaty by the queen regent through the medium of the French embassy here. The next step must be taken by Spain; that is, she must name her special envoy and notify the United States government of the probable date, upon which he will present himself in Washington with the exchange copy of the treaty of peace. Although in most instances little more than a perfunctory ceremony, in case of the exchange of ratifications of this treaty, the details will be of more than ordinary interest for the occasion will be historical.

Browns Purchased.

St. Louis, March 17.—Edward C. Becker, capitalist of this city, has purchased the St. Louis Browns from the creditors, who bought the club's assets last Tuesday at sheriff's sale. The price paid is not stated, but is in excess of that offered by Frank Tate, theatrical manager, \$37,900.

At Kansas City.

Kansas City, March 17.—The army beef court of inquiry arrived here from Omaha. The members of the commission started promptly for Armour's packing plant, to investigate its methods of preparing beef. As beef was supplied alone by the local firm of Armour, no other plants here will be investigated. After the testimony here has been taken the commission will doubtless go to Fort Leavenworth, Kan., and take evidence. The commission may remain in this vicinity till over Sunday.

ROYAL HEIR

the Defunct Throne of Hawaii Dies of Rheumatism.

Honolulu, March 10, via San Francisco, March 17.—Princess Kalulani died March 6 of inflammatory rheumatism contracted several weeks ago.

She was the daughter of Princess Miriam Likelike, a member of the Hawaiian royal family, and O. S. Cleghorn, an Englishman. Kalulani was born in 1875. In 1891 she was proclaimed heir-apparent by Liliuokalani, who was on the throne of Hawaii.

The funeral of the dead princess will occur on Sunday, March 12, from the old native church, and will be under the direction of the government. The ceremonies will be on a scale befitting the rank of the young princess.

The body is lying in state at Anlaskan, the princess' old home. Thousands of people, both native and white, have gone out to the place, and the whole town is in mourning. Flags on the government buildings are at half-mast.

TRAIN DERAILED

One Man Killed and Many Passengers Seriously Injured.

Volland, Kan., March 17.—An east-bound passenger train under Conductor Thomas, jumped the track just west of Volland, on the Rock Island road, throwing the tank, baggage car and smoker down a bank, and leaving the chair car and baggage car partly tipped over.

The train caught fire, the flames destroying the combination baggage and mail car, two coaches and a chair car. Twenty-six passengers were injured, two seriously. William Freeman, Kansas City, train baggageman, was killed.

The relief train with doctors was sent from Topeka, as soon as word was received of the accident, and every possible attention was shown the injured. A construction train was also soon on the ground, and the work of clearing the track commenced at once, so that travel could be resumed.
